TABLES & FIGURES

Lanthanum Strontium Manganese Oxide Market Size

The global market for Lanthanum Strontium Manganese Oxide was valued at US\$ 1057 million in the year 2024 and is projected to reach a revised size of US\$ 1727 million by 2031, growing at a CAGR of 7.2% during the forecast period.

Lanthanum Strontium Manganese Oxide Market

The 2025 U.S. tariff policies introduce profound uncertainty into the global economic landscape. This report critically examines the implications of recent tariff adjustments and international strategic countermeasures on Lanthanum Strontium Manganese Oxide competitive dynamics, regional economic interdependencies, and supply chain reconfigurations.

Lanthanum Strontium Manganese Oxide (LSMO, typically $\text{La}_{1-x}\text{Sr}_x\text{MnO}_3$) is a perovskite-structured mixed metal oxide known for its high electrical conductivity, magnetoresistance, catalytic behavior, and excellent thermal stability, widely used in solid oxide fuel cells (SOFC) cathodes, oxygen-permeation membranes, magnetic sensors, and thin-film electronics. Its supply chain begins upstream with rare-earth raw materials—lanthanum oxide, strontium carbonate, and manganese oxide—sourced mainly from China, the U.S., and Australia; these materials are then processed midstream through solid-state synthesis, sol-gel, Pechini, spray-pyrolysis, or sputtering-target fabrication routes to create powders, sintered components, pellets, and thin-film targets. Downstream, LSMO is integrated by SOFC manufacturers, membrane-reactor producers, sputtering-target users, research laboratories, semiconductor deposition firms, and magnetic device OEMs for applications requiring high-temperature stability and tunable electrical/magnetic properties. In 2024, global LSMO production reached about 42,000 tons versus a 50,000-ton capacity, with powder priced at USD 26,000–70,000 per ton and manufacturers averaging a 33% gross margin across powder and pellet product lines.

North American market for Lanthanum Strontium Manganese Oxide is estimated to increase from \$ million in 2024 to reach \$ million by 2031, at a CAGR of % during the forecast period of 2025 through 2031.

Asia-Pacific market for Lanthanum Strontium Manganese Oxide is estimated to increase from \$ million in 2024 to reach \$ million by 2031, at a CAGR of % during the forecast period of 2025 through 2031.

The major global manufacturers of Lanthanum Strontium Manganese Oxide include American Elements (USA), Nexceris (USA), Stanford Advanced Materials (USA), Cerpotech (Norway), Oerlikon Metco (Switzerland), TOB New Energy (China), Infinita Materials (USA), ATT Advanced Elements (USA), AbleTarget (China), ALB Materials (USA), etc. In 2024, the world's top three vendors accounted for approximately % of the revenue.

Report Scope

This report aims to provide a comprehensive presentation of the global market for Lanthanum Strontium Manganese Oxide, with both quantitative and qualitative analysis, to help readers develop business/growth strategies, assess the market competitive situation, analyze their position in the current marketplace, and make informed business decisions regarding Lanthanum Strontium Manganese Oxide.

The Lanthanum Strontium Manganese Oxide market size, estimations, and forecasts are provided in terms of output/shipments (Tons) and revenue (\$ millions), considering 2024 as the base year, with history and forecast data for the period from 2020 to 2031. This report segments the global Lanthanum Strontium Manganese Oxide market comprehensively. Regional market sizes, concerning products by Type, by Application, by Doping Level and by players, are also provided.

For a more in-depth understanding of the market, the report provides profiles of the competitive landscape, key competitors, and their respective market ranks. The report also discusses technological trends and new product developments.

The report will help the Lanthanum Strontium Manganese Oxide manufacturers, new entrants, and industry chain related companies in this market with information on the revenues, production, and average price for the overall market and the sub-segments across the different segments, by company, by Type, by Application, by Doping Level and by regions.

Scope of Lanthanum Strontium Manganese Oxide Market Report

Report Metric	Details
Report Name	Lanthanum Strontium Manganese Oxide Market
Accounted market size in year	US\$ 1057 million
Forecasted market size in 2031	US\$ 1727 million
CAGR	7.2%
Base Year	year
Forecasted years	2026 - 2031
Segment by Type	- Rhombohedral LSMO - Orthorhombic LSMO
Segment by Doping Level	- Low-doped LSMO (0.05–0.15) - Moderate-doped LSMO (0.15–0.30) - High-doped LSMO (0.30–0.50) - Over-doped LSMO (Over 0.50)
Segment by Application	- Battery & Energy Storage - Electronic & Semiconductor - Chemical & Catalysis - Water Treatment - Metallurgy - Others

Production by Region	• North America • Europe • China • Japan • India • Southeast Asia
Consumption by Region	• North America (United States, Canada) • Europe (Germany, France, UK, Italy, Russia) • Asia-Pacific (China, Japan, South Korea, Taiwan) • Southeast Asia (India) • Latin America (Mexico, Brazil)
By Company	American Elements (USA), Nexceris (USA), Stanford Advanced Materials (USA), Cerpotech (Norway), Oerlikon Metco (Switzerland), TOB New Energy (China), Infinita Materials (USA), ATT Advanced Elements (USA), AbleTarget (China), ALB Materials (USA), Kurt J. Lesker (USA), Edgetech Industries (USA), QS Advanced Materials (USA), Demaco Vacuum (Netherlands), Target Materials (USA)
Forecast units	USD million in value
Report coverage	Revenue and volume forecast, company share, competitive landscape, growth factors and trends

Chapter Outline

- Chapter 1: Introduces the report scope of the report, executive summary of different market segments (by region, by Type, by Application, by Doping Level etc), including the market size of each market segment, future development potential, and so on. It offers a high-level view of the current state of the market and its likely evolution in the short to mid-term, and long term.
- Chapter 2: Detailed analysis of Lanthanum Strontium Manganese Oxide manufacturers competitive landscape, price, production and value market share, latest development plan, merger, and acquisition information, etc.
- Chapter 3: Production/output, value of Lanthanum Strontium Manganese Oxide by region/country. It provides a quantitative analysis of the market size and development potential of each region in the next six years.
- Chapter 4: Consumption of Lanthanum Strontium Manganese Oxide in regional level and country level. It provides a quantitative analysis of the market size and development potential of each region and its main countries and introduces the market development, future development prospects, market space, and production of each country in the world.
- Chapter 5: Provides the analysis of various market segments by Type, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different market segments.
- Chapter 6: Provides the analysis of various market segments by Application, covering the market size and development potential of each market segment, to help readers find the blue ocean market in different downstream markets.
- Chapter 7: Provides profiles of key players, introducing the basic situation of the main companies in the market in detail, including product production/output, value, price, gross margin, product introduction, recent development, etc.
- Chapter 8: Analysis of industrial chain, including the upstream and downstream of the industry.
- Chapter 9: Introduces the market dynamics, latest developments of the market, the driving factors and restrictive factors of the market, the challenges and risks faced by manufacturers in the industry, and the analysis of relevant policies in the industry.
- Chapter 10: The main points and conclusions of the report.

FAQ for this report

- How fast is Lanthanum Strontium Manganese Oxide Market growing?
- What is the Lanthanum Strontium Manganese Oxide Market size in 2031?
- Who are the main players in the Lanthanum Strontium Manganese Oxide Market report?
- What are the Application segmentation covered in the Lanthanum Strontium Manganese Oxide Market report?
- What are the Type segmentation covered in the Lanthanum Strontium Manganese Oxide Market report?
